

SA-1011 Pre-amplifier

Features

1. 19-inch standard cabinet design, humanized design
2. 10-channel input (5-channel microphone, 3-channel line, 2-channel emergency input)
3. The microphone (MIC) input channel and the line (AUX) input channel can be adjusted independently.
4. Independent adjustment of treble and bass;
5. On-off buffer, delay output protection function
6. Three-level priority design: MIC1 is the highest priority, emergency audio signal (EMC) is the second level, MIC2, 3, 4, 5 and lines (AUX1, AUX2, AUX3) are the third level
7. Emergency audio signal input has no volume adjustment and is automatically muted to 30 dB.

Technical parameters

Model	SA-1011
Input	Microphone input (MIC) 600 Ω 5mV, unbalanced
	Emergency input (EMC) 10k Ω 330mV, unbalanced
	Line input (AUX) 10k Ω 330mV, unbalanced
Output	Line output 1.0 V
Frequency response	20 Hz ~ 20 kHz (\pm 3 dB)
Power consumption	30W
Power source	AC220V~240V 50/60HZ
Size	484×390×88mm
Weight	7.5kg
