

SA-221 Desktop Microphone

Technical Parameter

Model	SA-221
Type	Microphone with bell prompt
Transduction mode	Electret
Frequency response	40Hz-16kHz
Directivity	Hypercardioid
Output Impedance (Ohms)	200Ω
Microphone Sensitivity	-43dB±2dB
Supply voltage (V)	DC9V/AC220V
The length of the mic	400mm
Cable length, configuration	10m single core, XLR female + 6.35 monophonic plug-in
Weight of a single microphone	0.67kg
Output, indication	Unbalance, seat lamp
Switch	Light touch
Anti-interference	Anti-mobile phone, electromagnetic and high-frequency interference
Factory configuration	Microphone, microphone cable, windproof cotton, manual, 9 V battery
