

## SA-4026 16-Channel Programmable Power Sequencer

### Features

1. 19-inch standard cabinet design, humanized design.
2. 16 power outputs, each output AC220 V (10 A), total power socket capacity up to 6 KVA.
3. With electronic lock switch, 16 power supplies can be manually controlled to cut off power.
4. Controlled by intelligent central controller/manual control.
5. Programmed control of timing on/off system equipment power supply, with address code selection, support 8 sets parallel operation.

### Technical parameters

Model	SA-4026
Power consumption	45W
Power supply	AC220V~240V 50/60HZ
Size	484×390×88mm
Weight	9.5kg
