

SA-4030 32-channel Intelligent Alarm Collector

Features

1. 19-inch standard cabinet design, humanized design.
2. 32-channel fire alarm interface, expandable to 300 channels.
3. Support short circuit, 12V-24V and other access methods, accurate alarm partition LED display.
4. With RJ45 communication interface, it can communicate with the system host to link the adjacent layer alarm, and realize flexible alarm functions of the whole zones, partition, adjacent layer, etc.

Technical parameters

Model	SA-4030
Power consumption	15W
Power supply	AC220V~240V 50/60HZ
Size	484×390×88mm
Weight	4.5kg
