

SA-7032 IP Network Alarm Host

Features:

1. 19-inch standard rack mount design, 2 U height, aluminum alloy panel, sophisticated technology;
2. With 16 channels of alarm signal input, when there is a signal input, the corresponding indicator lights up to achieve real-time monitoring of the alarm state;
3. With 4-way linkage alarm signal output, to control water spray, power switch and other fire fighting equipment;
4. The fixed static IP address is adopted. When the network changes, the address will not be lost and the operation is stable;
5. With the use of IP network broadcasting system, the corresponding alarm bell can be set according to different locations and different alarm sources, so that the disaster situation is clear.

Technical parameters:

Alarm input	16-way (short circuit signal input)
Serial port	DB9 interface
Alarm output	4-way (short circuit signal output)
Standby power	1W
Transmission rate	10/100Mbps
Support agreement	ARP, UDP, TCP/IP, ICMP, IGMP (Multicast)
Power source	AC 220V 50/60Hz
Operating temperature	-20℃ ~ +60℃
Operating humidity	10% ~ 90%
Dimension (mm)	484 (W) × 355 (D) × 88 (H)
Weight	5.15kg
