

SONBS

SD-651 6.5-inch High-end Full-frequency Loudspeaker

Features

It is a small full-range speaker. With high-efficiency bass unit and 25-core bullet treble, it has a clear, delicate and soft sound. High strength multi-layer composite plywood, made by multiple spraying. The whole product is exquisite in appearance, beautiful in shape, reasonable in hanging design and convenient in installation. It is used in audio conference system, school classroom, corridor sound reinforcement, leisure bar, coffee shop, multi-function hall, senior hotel club, etc.
